

Continuous Learning Plan

First Grade

April and May 2020

I have included activities from three areas that are familiar to the students: Reading, Phonics, and Math. You will also be able to go on Istation in Reading or Math. Students should work no longer than 45 minutes daily, Monday through Thursday on school work.

Please choose 2 activities each day. Students should be able to do these on their own with minimal assistance from parent or adult, please feel free to help when they need it. I will keep these activities the same each week in order to make it simple for the student to follow. There will be one folder in each of the three areas, along with suggestions for the daily work. Please have your child choose two activities daily on which to work. If the student skips one day, they may do that page the following day.

I will need to see what the student has completed on Wednesday. Please take a photo and send me a text with their best work in the areas. If your child chooses to work on Istation, I can see what they have done and that will be appropriate for their learning activities. We are just beginning to figure this system out, so please be patient with us. We may need to modify things as we go along.

I would like to speak to your child each week on the phone, most of you know my phone number: 575-403-7491. I will also be checking my email daily: dcarter@sanjonschools.com. Please do not hesitate to call or send me a text when you have any questions. I know parents may be working during the day, so you may need to wait until the evening.
